HAVE WE LOST OUR HEADS

Text: II Kings 6:1-7

Introduction

This account taken from life of Elisha serves as a great warning to us today. We also see instruction on how to regain our effectiveness once it has been lost.

I. Inattention that Caused it

What lead to this man loosing the ax head. It was not INACTIVITY but INATTENTION.

II. The Ineffectiveness it Caused

This man was not affective without his ax head. We are not affective without the power of God on our lives.

III. The Intervention it Called For

A miracle occurred so this man could be affective again. Much the same way, we need a miracle of grace when we lose the power of God on our lives so we can be restored to faithfulness.
